ABOUT ME

BSc in Information Technology graduate with distinction (86.3% average) from North-West University. Skilled in Python, Java, and SQL, with hands-on experience in software development, data analysis, and AI-driven solutions. Proven ability to deliver innovative, user-focused projects, such as a multi-platform student feedback system adopted by the university. Passionate about solving real-world challenges through technology.

EDUCATION

BSc. in Information Technology
North-West University

Jan 2022 - Dec 2024
Potchefstroom, North-West

National Senior Certificate
Hoërskool Riebeeckrand

Graduation Date: Dec 2020
Randfontein, Gauteng

PROJECT EXPERIENCE

Final Group Project - Multi-Platform Student Feedback Application

Full-Stack Developer

- **Technologies Used:** Node.js, Express, Flutter, MySQL, Cloud Storage (Nextcloud).
- **Description:**
 1. Part of a small team that developed a multi-platform application enabling students to submit video assignments and receive faculty feedback seamlessly and efficiently.
 2. Designed and implemented the backend API (Node.js, Express) for video compression, conversion, and cloud storage, and built the frontend (Flutter) for intuitive video uploads and viewing.
 3. Managed the MySQL database, storing metadata (e.g., video titles, submission dates, user information), and configured cloud storage for secure video uploads and retrieval.
 4. Authored comprehensive API documentation, including endpoint specifications and usage guidelines, ensuring seamless integration for future developers.
 5. Collaborated with a team of three to deliver the project on time, meeting all requirements and achieved project mark of 94%.
- **Achievements:** Recognized as the best project among five finalist groups, leading to adoption by the university for integration into their HMS systems for use by students and lecturers.

SKILLS

- **Programming Languages:** Python, Java, JavaScript, C#.
- **Database Management:** SQL Querying and Optimization, Relational Databases (MySQL, Microsoft SQL Server), Database Design and Normalization.
- **Software Development:** Object-Oriented Programming (OOP), Version Control Systems (Git), Software Development Life Cycle, Agile Methodologies, Test-Driven Development.
- **Web Development:** Backend Development, Frontend Development, API Integration.
- **Soft Skills:** Problem Solving, Communication, Adaptability, Attention to Detail, Teamwork, Critical Thinking.
